Priporočila RDA skupin v zvezi z znanstvenimi revijami in raziskovalnimi podatki

Janez Štebe, **Znanstvene revije Slovenije in raziskovalni podatki, FDV UL,** Ljubljana, 2020-01-28

Kriteriji za izbor repozitorijev, ocenjevanje in certificiranje (sestanek na RDA konferenci 2019)

Meeting agenda (https://www.rd-alliance.org/criteria-repository-selection-qualification-and-certification):

Introduction, scope of the meeting (5 mins; **Peter McQuilton**)

RDA Data Policy Standardisation and Implementation IG: summary of first output from the group, a data policy framework for all journals and publishers (10 mins + 5 mins Qs; **IG chairs):** [Data policy standardisation and implementation IG](#) , [FAIRSharing Registry: connecting data policies, standards & databases WG](#)

RDA ELIXIR IG: Core Data Resources and Deposition Databases in the life science repositories, the selection process (10 mins + 5 mins Qs; **Rachel Drysdale**)

RDA Certification of Digital Repositories IG: The Core Trust Seal and the TRUST Principles (10 mins + 5 mins Qs; **Rorie Edmunds & Dawei Lin**): [RDA/WDS Certification of Digital Repositories IG](#)

RDA FAIRsharing WG: Criteria for Data Repository Selection - a joint initiative between FAIRsharing, DataCite and publishers (10 mins + 5 mins Qs; **Susanna-Assunta Sansone, Helena Cousijn & Peter McQuilton**)

  – [Data Repository Selection- Criteria That Matter - **Pre-print**](#)

  – [Presentation](#)
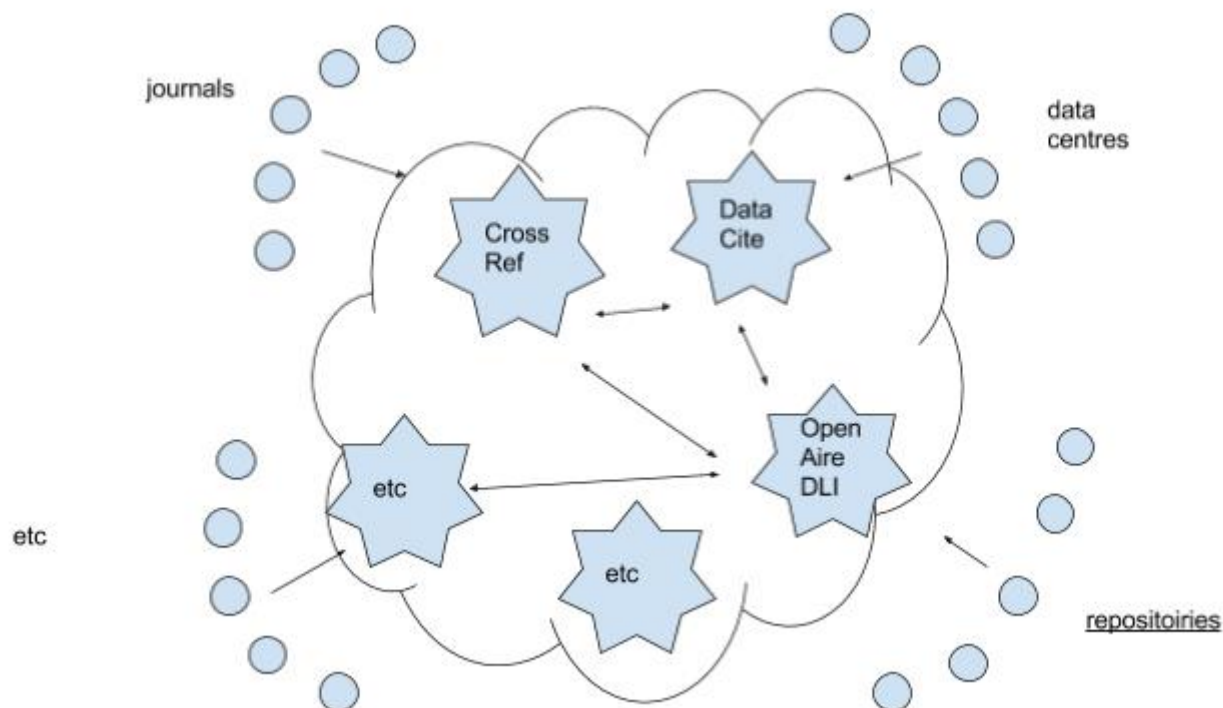

Medzaložniški kriteriji za izbor repozitorijev

CRITERIA	DEFINITION	IMPORTANCE	VALUE(S) FAIRSHARING WILL CURATE AND DISPLAY	VALUE(S) TO BE USED FOR FILTERING
Repository Status	The life cycle status of the repository: is it still being developed or in production and accepting data submissions?	*Essential*	-'Ready' (production-level). - 'In development' (actively being developed but still not ready for use). - 'Deprecated' (no longer maintained or superseded). - 'Uncertain' (when the life cycle position is unclear).	**Status 'ready':** Only production-level repositories will be selected.
Data Access Condition	Data access terms at repository level: how does one get to the data? For example, if the data is freely available or subject to a request and approval process.	*Essential*	- Presence 'yes', or absence 'no'. - Type of condition, e.g. 'open', 'controlled' - URL to the condition information.	**Presence (yes):** Only repositories that make access condition clear will be selected.
Data Reuse Condition	Licence or terms of use for reuse of existing data in the repository: what are the conditions, if any, under which one can reuse the data?	*Essential*	- Presence 'yes', or absence 'no'. - Type of condition. - URL to the condition information.	**Presence (yes):** Only repositories that make data reuse condition clear will be selected.
Data Deposition Condition	Deposition of data: are there any restrictions (e.g. by location, country, organization, etc.) or can anyone from anywhere deposit data?	*Essential*	- Presence 'yes', or absence 'no'. - Type of condition. - URL to the condition information.	**Presence (yes):** Only repositories that make data deposition condition clear will be selected.

Posebej izpostavljene ostale RDA skupine v povezavi z revijami

- Citiranje dostopnih podatkov kot povratna informacija in nagrada za ustvarjalca podatkov:

RDA Sharing Rewards and Credit (SHARC) IG

Sharing Rewards and Credit (SHARC) Draft Background paper and recommendations (Crediting and Rewarding Mechanisms in the data/resources sharing process: towards recommendations…)

- Viri za oblikovanje smernic za citiranje: FORCE11 and Research Data Alliance Joint Declaration of Data Citation Principles,

RDA Lingustics Data IG: Recommendations for citation of research data in linguistics

RDA Data Citation WG: Recommendations for Data Citations of Evolving Data

- Napotki glede licenciranja: RDA & CODATA Legal Interoperability of Research Data Principles and Implementation Guidelines
