Nov portal za iskanje razpisov v okviru evropskih programov

Evropska komisija je objavila nov portal »Funding & Tender Opportunities Portal«, ki bo nadomestil trenutni »Participant Portal«. Postala bo enotna vstopna točka za iskanje in upravljanje Evropskih razpisov in javnih naročil. Portal vsebuje novo postavitev in je opremljen z izboljšano funkcijo iskanja ključnih besed. Novi portal ponuja vse funkcije, ki so bile na voljo na Participant Portalu. Vsebine na Participant Portalu ob koncu leta ne bodo več dostopne.

Povezava: [Funding & Tenders Opportunities Portal](#)

RESEARCH PROFESSIONAL

Univerza v Ljubljani plačuje naročnino za Research Professional, informacijsko platformo, ki se ponaša z največjo bazo odprtih razpisov na svetu. V bazo je vključenih več kot 12.000 financerjev, ki dnevno objavijo več kot 350 **razpisov za raziskovanje, razvoj, izobraževanje, raziskovalne infrastrukture, potne stroške, nagrade in druge z raziskovanjem povezane možnosti**. Vsi raziskovalci, študentje in ostali zaposleni Univerze v Ljubljani imate **brezplačno možnost uporabe** omenjene platforme, preko katere si lahko nastavite svoje iskalne kriterije (znanstveno področje, tip dotacije, vir financiranja, rok prijave, višina financiranja itd.) ter iskalno nastavitve shranite. Tako lahko shranite neomejeno število iskanj in si nastavite možnost »ALERT«, s katero boste vsak petek prejeli tedensko svež elektronski izbor razpisov, ki ustrezajo vašim vnaprej nastavljenim iskalnim preferencam.

Spletna stran: <https://www.researchprofessional.com/>

Uporabnik se lahko registrira na naročniško verzijo programa samo iz računalnikov, ki so znotraj univerzitetnega omrežja. Preko gumba »REGISTER« (desno zgoraj) si izberete uporabniško ime in geslo. Če želite uporabljati program izven univerzitetnega računalniškega omrežja, morate biti registrirani, saj se vam pojavi samo možnost »SIGN IN«, ne pa »REGISTER«. V kolikor potrebujete dodatne informacije prosim sporočite na euprojekti@uni-lj.si.

PLATFORMA CROWDHELIX

Platforma CROWDHELIX je namenjena povezovanju akademskih institucij in podjetji pri oblikovanju kompetitivnih konzorcijev za pripravo projektov na razpise programa Obzorje 2020. Preko platforme, ki je razdeljena na različna tematska področja (*helixes*), lahko objavite vaše interese po sodelovanju ali pa poiščete že obstoječe iniciative oziroma konzorcije, ki iščejo partnerje z določeno ekspertizo. Trenutno je na platformi objavljenih 444 priložnosti z več kot 2200 uporabniki iz 287 aktivnih organizacij.

Univerza v Ljubljani plačuje letno članarino, zato se lahko raziskovalci in raziskovalke UL registrirajo brezplačno preko povezave: <https://www.crowdhelix.com/signup>

Kratek pregled platforme in njenih funkcionalnosti:

- Iskanje partnerskih ponudb po tematskih področjih
- Povezovanje akademskih institucij s podjetji
- Iskanje drugih priložnosti za sodelovanje
- Objava in iskanje tematskih dogodkov
- Izmenjava mnenj in priložnosti

Povezava: <https://www.crowdhelix.com/>

OBJAVLJENI RAZPISI

Evropska komisija je objavila delovne programe s temami razpisov za leto 2020. Delovni programi so dostopni na spodnjih povezavah, pregled vseh tem pa je v priloženi Excel datoteki

Trusted digital solutions and Cybersecurity in Health and Care	
Več informacij:	Spletna stran razpisa
Rok prijave:	13.11.2019
Opis:	<p>This action should contribute to testing and developing AI tools and analytics focused on the prevention, prediction and treatment of the most common forms of cancer while providing solutions to securely share health images across Europe.</p> <p>Proposals should set up and contribute to populate a large interoperable repository of health images, enabling the development, testing and validation of AI-based health imaging solutions to improve diagnosis, disease prediction and follow-up of the most common forms of cancer.</p> <p>The proposal should provide appropriate indicators to measure its progress and specific impact in the following areas:</p> <ul style="list-style-type: none"> • Contributing towards the creation of a EU-wide repository of health images dedicated to the most common forms of cancer, enabling experimentation of AI-based solutions to improve diagnosis, treatment and follow-up and contribute to a more precise and personalised management of cancer. • Contributing to developing technical, organisational and ethical standards for AI for health imaging • Promoting access to anonymised health image data sets to be made more openly reusable across the EU for training AI applications. • Increasing trust in AI solutions among users (healthcare professionals and patients), investors and stakeholders at industry and academia.
Proračun:	35.000.000 EUR

Complementary call on Quantum Computing and Technologies	
Več informacij:	Spletna stran razpisa
Rok prijave:	13.11.2019
Opis:	<p>V okviru prednostne naloge »odlična znanost« programa za raziskave in inovacije Obzorje 2020 so objavljeni trije javni razpisi na področju spodbujanja radikalnih novih tehnologij, pri čemer se ti razpisi nanašajo na steber FET Flagships (skupne raziskave), ki se dotika velikih interdisciplinarnih znanstvenih in tehnoloških izzivov:</p> <ul style="list-style-type: none"> • Complementary call on Quantum Computing FETFLAG-05-2020 • International Cooperation on Quantum Technologies FETFLAG-06-2020 • Training and Education on Quantum Technologies FETFLAG-07-2020
Proračun:	20.500.000 EUR

Digital transformation in Health and Care	
Več informacij:	Spletna stran razpisa
Rok prijave:	13.11.2019
Opis:	<p>V okviru prednostne naloge »družbeni izzivi – zdravje, demografske spremembe in blaginja prebivalstva« programa za raziskave in inovacije Obzorje 2020 sta objavljena dva javna razpisa za sofinanciranje projektov na področju digitalne preobrazbe v zdravstvu in zdravstveni oskrbi:</p> <ul style="list-style-type: none"> • Coordination and Support to better data and secure cross-border digital infrastructures building on European capacities for genomics and personalised medicine • Support for European eHealth Interoperability roadmap for deployment
Proračun:	7.000.000 EUR

Better Health and care, economic growth and sustainable health systems	
Več informacij:	Spletna stran razpisa
Rok prijave:	7.4.2020
Opis:	<p>V okviru prednostne naloge »družbeni izzivi – zdravje, demografske spremembe in blaginja prebivalstva« programa za raziskave in inovacije Obzorje 2020 je bilo 4. Julija objavljenih 24 javnih razpisov za sofinanciranje projektov na področju zagotavljanja boljšega zdravstvenega varstva, ekonomske rasti in trajnostnih zdravstvenih sistemov:</p> <ul style="list-style-type: none"> • Digital diagnostics – developing tools for supporting clinical decisions by integrating various diagnostic data • New interventions for Non-Communicable Diseases • Advancing the safety assessment of chemicals without the use of animal testing • Global Alliance for Chronic Diseases (GACD) - Prevention and/or early diagnosis of cancer • Pre-commercial procurement (PCP) for integrated care • Public procurement of innovative solutions (PPI) for diagnostics for infectious diseases • Healthcare interventions for the management of the elderly multimorbid patient • Innovative actions for improving urban health and wellbeing - addressing environment, climate and socioeconomic factors • Addressing low vaccine uptake • New approaches for clinical management and prevention of resistant bacterial infections in high prevalence settings • Creation of a European wide sustainable network for harmonised large-scale clinical research studies for infectious diseases • Micro- and nano-plastics in our environment: Understanding exposures and impacts on human health • Use of Real-World Data to advance research on the management of complex chronic conditions • Implementation research for scaling up and transfer of innovative solutions involving digital tools for people-centred care • Towards a Health research and innovation Cloud: Capitalising on data sharing initiatives in health research

	<ul style="list-style-type: none"> • Actions in support of the International Consortium for Personalised Medicine • Bridging the divide in health research and innovation – boosting return on investment • ERA-NET to support the Joint Programming Initiative on Antimicrobial resistance (JPIAMR) • ERA-NET: Sustained collaboration of national and regional programmes in cancer research • ERA-NET: Sustained collaboration of national and regional programmes in research on brain-related diseases and disorders of the nervous system • Coordinating and supporting research on the human microbiome in Europe and beyond • Developing methodological approaches for improved clinical investigation and evaluation of high-risk medical devices • Reliable and accessible information on cell and gene-based therapies • Coordination of clinical research activities of the European Reference Networks

Call for proposals 2019 - H2020 - Marie Skłodowska-Curie research and innovation staff exchange 2020	
Več informacij:	Spletna stran razpisa
Rok prijave:	28.4.2020
Opis:	<p>The RISE scheme promotes international and cross-sector collaboration through exchanging research and innovation staff, and sharing knowledge and ideas from research to market (and vice-versa).</p> <p>The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps to turn creative ideas into innovative products, services or processes.</p>
Proračun:	80.000.000 EUR

Call for proposals 2019 - H2020 - Marie Skłodowska-Curie Individual Fellowships	
Več informacij:	Spletna stran razpisa
Rok prijave:	9.9.2020
Opis:	<p>The goal of the Individual Fellowships is to enhance the creative and innovative potential of experienced researchers, wishing to diversify their individual competence in terms of skill acquisition through advanced training, international and intersectoral mobility.</p> <p>Individual Fellowships provide opportunities to researchers of any nationality to acquire and transfer new knowledge and to work on research and innovation in Europe (EU Member States and Horizon 2020 Associated Countries) and beyond. The scheme particularly supports the return and (re)integration of European researchers from outside Europe and those who have previously worked here, as well as researchers displaced by conflict outside the EU and Horizon 2020 Associated Countries. It also promotes the career restart of individual researchers who show great potential.</p>
Proračun:	328.000.000 EUR

Call for proposals 2019 - H2020 - Marie Skłodowska-Curie co-funding of regional, national and international programmes 2020	
Več informacij:	Spletna stran razpisa
Rok prijave:	29.9.2020
Opis:	<p>The COFUND scheme aims to stimulate regional, national or international programmes to foster excellence in researchers' training, mobility and career development, spreading the best practices of the Marie Skłodowska-Curie actions.</p> <p>This will be achieved by co-funding new or existing regional, national, and international programmes to open up to, and provide for, international, intersectoral and interdisciplinary research training, as well as transnational and cross-sectoral mobility of researchers at all stages of their career.</p>
Proračun:	100.000.000 EUR

DIGITAL SINGLE MARKET

Pilot project platforms for cultural content innovation	
Več informacij:	Spletna stran razpisa
Rok prijave:	20.9.2019
Opis:	<p>Digital Single Market invites proposals for pilot projects for cultural content innovation. These encourage innovation and collaboration through the sharing of experiences, data and knowledge, in order to develop new business models in the European content industries. Projects should build on a market analysis which identifies the main challenges for content industries, and explains how the proposed project can add value compared to existing initiatives.</p> <p>Applicants must be a single entity, several entities applying as one, or a consortium. Applicants must be public or private legal organisations established in an EU member state.</p> <p>The total budget is €1,038,000 and funding is worth up to 60 per cent of the eligible costs over up to 18 months. Up to three projects may be funded.</p>
Proračun:	1.038.000 EUR

Media freedom and investigative journalism	
Več informacij:	Spletna stran razpisa
Rok prijave:	27.9.2019
Opis:	<p>The Digital Single Market invites proposals for media freedom and investigative journalism. This supports studies, mapping and analyses, as well as dissemination activities such as conferences and seminars, training activities, creation of networks and digital tools, and cooperation projects aimed at supporting media freedom and investigative journalism. Activities under the following actions may be funded:</p> <ul style="list-style-type: none"> • action 1 – pilot project for a Europe-wide response mechanism for violation of press and media freedom, with one grant of €1.4 million available;

	<ul style="list-style-type: none"> • action 2 – preparatory action for cross-border investigative journalism fund, with one grant of €1.5m available; • action 3 – pilot project for supporting investigative journalism and media freedom in the EU, with between three to five grants of €425,000 each available. <p>Non-profit organisations, international organisations, universities, educational institutions and research centres based in EU member states and candidate countries, EFTA or EEA countries may apply. For actions 1 and 2, consortia must consist of at least two legal entities. For action 3, proposals may be submitted by one applicant formed of several legal entities.</p> <p>The total budget is worth €4.175m. Grants cover 90 per cent of eligible costs. Activities may last for one year.</p>
Proračun:	1.500.000 EUR

EMPLOYMENT, SOCIAL AFFAIRS AND INCLUSION DG

REC programme - 2020 Operating Grants open to EU-level networks active in the area: "rights of persons with disabilities" and having signed a Framework Partnership Agreement 2018-2021	
Več informacij:	Spletna stran razpisa
Rok prijave:	25.9.2019
Opis:	<p>The objective of the Call is to promote, protect and monitor the rights of persons with disabilities, to ensure that people with disabilities can fully enjoy their rights.</p> <p>The types of activities which may be funded under this call for proposals include:</p> <ul style="list-style-type: none"> • analytical activities • training activities, • mutual learning, cooperation, awareness-raising and dissemination activities • management activities.
Proračun:	2.900.000 EUR

Operating grants to EU level networks having signed a framework partnership agreement for the period 2018-2021 and being active in the areas of social inclusion and poverty reduction, or microfinance and social enterprise finance	
Več informacij:	Spletna stran razpisa
Rok prijave:	25.9.2019
Opis:	<p>The call aims at providing specific annual operating grants to networks of organisations active in the area of the promotion of social inclusion and poverty reduction and having previously signed a 4-year Framework Partnership Agreement (FPA) with the Commission.</p> <p>The types of activities which may be funded under this call for proposals include:</p> <ul style="list-style-type: none"> • analytical activities

	<ul style="list-style-type: none"> • training activities, • actions aiming at the creation and improving of networks, mutual learning, cooperation, awareness-raising and dissemination activities.
Proračun:	12.100.000 EUR

DIRECTORATE-GENERAL FOR EDUCATION, YOUTH, SPORT AND CULTURE

Pilot project "Protecting the Jewish cemeteries of Europe: Continuation of the mapping process, stakeholders' involvement and awareness raising"	
Več informacij:	Spletna stran razpisa
Rok prijave:	30.8.2019
Opis:	<p>The objective of the pilot project is to conduct a broad sample survey (hereafter referred to as "mapping") of at least 1500 Jewish cemeteries in Europe (around 25% of the total number), each of which presents a unique challenge with regard to the current state of Jewish cemeteries. The proposed new pilot project shall extend the work carried out within the framework of Pilot project selected following the call EAC/S10/2018.</p> <p>More specifically, it is expected that the selected organisation/consortium will:</p> <ul style="list-style-type: none"> • Produce a mapping • Identify and carry out innovative pilot activities • Communicate the project results • Contribute to the objectives set by the European Year of Cultural Heritage 2018 and the European Framework for Action on Cultural Heritage.
Proračun:	1.050.000 EUR

Mobility scheme for artists and/or cultural professionals	
Več informacij:	Spletna stran razpisa
Rok prijave:	27.9.2019
Opis:	<p>Artistic and cultural mobility has increasingly received policy attention both at European Union and national levels. Mobility has always been a policy priority under the European Agenda for Culture and a crucial component of the Creative Europe programme. More recently, Culture ministers have explicitly called upon the European Commission to investigate the possibility of setting up a specific mobility action for artists and culture professionals.</p> <p>Some opportunities for the international mobility of artists and/or cultural professionals exist with the support of public institutions, private foundations and/or NGOs, at local, regional, national, European and international level. At national level the situation is quite varied and at EU level, several EU programmes and funding instruments offer various opportunities for cross-border mobility activities that may include the cultural and creative sectors. However, none are specifically focused on the needs of artists or cultural professionals but rather on formal education, entrepreneurship or volunteering. The Creative Europe programme supports the mobility of artists and/or cultural professionals but only within cooperation projects and platforms.</p>
Proračun:	1.500.000 EUR

DIRECTORATE-GENERAL FOR COMMUNICATIONS NETWORKS, CONTENT AND TECHNOLOGY

Preparatory action on media literacy for all	
Več informacij:	Spletna stran razpisa
Rok prijave:	30.9.2019
Opis:	<p>The Directorate-General for Communications Networks, Content and Technology invites proposals for preparatory action on media literacy for all. This aims to increase the level of media literacy in Europe by fostering the development of new educational materials or services, as well as the design of methods to raise awareness about the techniques used to create, distribute and amplify disinformation over the internet. The following activities are eligible:</p> <ul style="list-style-type: none"> • creation of multilingual online material including fact-checked news repositories and interactive educational tools; • development of tools and innovative methodologies to raise awareness about the danger of receiving and propagating disinformation, promote the use of fact-checking services and the reporting by social media users of disinformation; • promotion of social media campaigns and other relevant activities aimed at helping citizens to interact with digital media in a critically evaluative way; • community-led activities to tailor and make the above tools and materials accessible to minorities, low-skilled people, digital immigrants or people at risk of being socially marginalised. <p>Non-profit organisations, public authorities, international organisations, universities, educational institutions, research centres or profit making entities may apply. Consortia must consist of at least three legal entities from at least three EU member states. Consortia of more than three legal entities from different member states will be prioritised.</p> <p>The total budget is worth €500,000 and up to 60 per cent of eligible costs may be co-funded. Between two and five projects may be funded over up to 12 months.</p>
Proračun:	500.000 EUR

Preparatory Action Cinemas as Innovation Hubs for Local Communities	
Več informacij:	Spletna stran razpisa
Rok prijave:	25.9.2019
Opis:	<p>This action will test the added-value of creating innovative cultural hubs around cinema theatres, notably in areas where there is limited cinema and cultural infrastructure and therefore limited provision of cultural goods and services.</p> <p>The following types of activities are eligible under this call for proposals:</p> <ul style="list-style-type: none"> • cross-border cooperation projects among cinema operators, as well as between cinema and other cultural organisations (such as museums, art galleries, libraries, film archives, performance spaces such as concert halls, theatres, etc.; these partnerships could be joined by VOD platforms etc.);

	<ul style="list-style-type: none"> • curated and diverse cinema programming of at least 60% of European content (mainly from EU countries) from different genres and formats, embodying European cultural diversity; the programming should present a strong cultural value and might include among others: feature films, TV series, animation, documentaries, heritage films, short formats or innovative content like VR); • education activities (including debates, creative workshops and co-creation) on topics such as cinema, new audiovisual technologies (VR, cross media etc.) and other cultural activities or performing arts; • activities meant to attract audiences to the cinema, cultivate new audiences and enhance their experience (i.e.: introducing more social elements and leisure elements by cooperating with cafés, concert or sports halls, video gaming etc.); • supporting cinema equipment and digitisation to adapt to audience needs, provided that this is necessary for the implementation of the action and creation of innovative and more diverse cultural hub experience; • promotion and communication activities related to the action; • actions aiming at the creation and improvement of networks, exchanges of good practices; • financial support to third parties.
Proračun:	2.000.000 EUR

EXECUTIVE AGENCY FOR SMALL AND MEDIUM-SIZED ENTERPRISES (EASME)

COSME Call 2019 - Encouraging community building around the issue of women entrepreneurship	
Več informacij:	Spletna stran razpisa
Rok prijave:	5.9.2019
Opis:	<p>The general objective of this call for proposals is to enhance women entrepreneurship in Europe by:</p> <ul style="list-style-type: none"> • Facilitating networking and sharing good practices between actors such as intermediary stakeholders, in order to improve the support effectively delivered to women entrepreneurs and to motivate more women to start their own business or to support the development of their business across Europe. • Entrusting stakeholders themselves with the management, update and promotion of the WEgate e-platform. <p>The specific objectives of this call for proposals are:</p> <ul style="list-style-type: none"> • To develop a "European women entrepreneurship community of practice" (the Community), which will complement and build on past, current and already planned initiatives in this area • To engage more stakeholders actively supporting women entrepreneurs - rather than women entrepreneurs themselves - with an emphasis on face-to-face exchanges and networking, in complement to online connections. <p>Activities supported by this call for proposals include:</p> <ul style="list-style-type: none"> • Management and continuation of the WEgate e-platform, including blog and forum management, hosting, maintenance, update and upgrade as well as

	<p>management the database of WEgate directory of registered users, developing an FAQ section, offering a feedback function and producing regular statistics data</p> <ul style="list-style-type: none"> • Organisation of meetings or events gathering public authorities, women entrepreneurs and other relevant stakeholders, including a mandatory launch event followed by yearly events • Organisation of peer learning workshops allowing stakeholders and women entrepreneurs to get a practical understanding of successful initiative conducted in other countries • Communications activities, consisting of a comprehensive strategy and outreach activities, including social media campaigns, organisation of matchmaking activities for mentoring and branding around WEgate • Community building activities for women entrepreneurship at European level
Proračun:	850.000 EUR

INTERNAL MARKET, INDUSTRY, ENTREPRENEURSHIP AND SMES

Galileo Information Centre for Mexico, Central America and the Caribbean	
Več informacij:	Spletna stran razpisa
Rok prijave:	3.9.2019
Opis:	<p>The call pursues setting-up one Information Centre for European Navigation Satellite programmes (EGNSS) in the United Mexican States (“Mexico”), to cover Mexico, Central America and the Caribbean (“the region”). This Centre must have the adequate technical expertise and institutional and workforce capabilities, to perform the tasks and activities foreseen in this Call in Mexico and in the region.</p> <p>The objectives of the Information Centre are to, inter alia:</p> <ul style="list-style-type: none"> • Ensure visibility of the European Satellite Navigation activities; • Monitor local and regional satellite navigation initiatives; • Ensure support to the users in the region, e.g. to support the development of new applications through cooperation between the region’s and European industrial actors. <p>The following types of activities are eligible under this call for proposals:</p> <ul style="list-style-type: none"> • Cooperation projects; • Conferences, seminars; • Training activities; • Awareness and dissemination actions; • Actions aiming at the creation and improvement of networks, exchanges of good practices; • Studies, analyses, mapping projects; • Research activities; • Other types of activities, as appropriate.
Proračun:	480.000 EUR

Proračun:	250.000 EUR

TENDERS

Članice se na razpise "tenders" prijavljajo samostojno, saj se izvajajo po naročilu in so v celoti financirani na podlagi zbiranja ponudb oziroma javnih naročil.

TENDER - Provision of services in the area of evaluation, analysis, support to impact assessments and implementation of climate policies	
Več informacij:	Spletna stran razpisa
Rok prijave:	9.9.2019
Opis:	<p>The Directorate-General for Climate Action invites tenders for provision of services in the area of evaluation, analysis, support to impact assessments and implementation of climate policies. The tenderer will perform services and studies supporting evaluation, impact assessments, analysis, implementation, evidence collection and research work excluding public consultations in relation to climate change policies.</p> <p>Legal or natural persons based in EU states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €15 million over two years.</p>
Proračun:	15.000.000 EUR

TENDER - Assessment of potential of new feedstocks for the production of advanced biofuels	
Več informacij:	Spletna stran razpisa
Rok prijave:	2.9.2019
Opis:	<p>The Directorate-General for Energy invites tenders for an assessment of potential of new feedstocks for the production of advanced biofuels. The tenderer will support the European Commission in the assessment of feedstock for advanced biofuels, including deployment potential of new or appearing feedstocks, feedstock availability, resource competition, and sustainability issues in the context of the renewable energy directive article 3(4)152 and the corresponding article in the recast directive. The study should fulfil the following objectives:</p> <ul style="list-style-type: none"> • identify raw materials that could potentially be added to annex IX of the recast of the renewable energy directive; • assist the Commission in the evaluation of the list of feedstocks in parts a and b of annex IX by conducting detailed assessments of each raw material that could be added; • identify risks for fraud and develop fraud mitigation methodologies. <p>Legal or natural persons based in EU states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €400,000 over 20 months.</p>
Proračun:	400.000 EUR

TENDER - Industrial competences for the pre-conceptual design activities of the European fusion demonstration reactor	
Več informacij:	Spletna stran razpisa
Rok prijave:	16.9.2019
Opis:	<p>The Directorate-General for Research and Innovation invites tenders for industrial competences for the pre-conceptual design activities of the European fusion demonstration reactor. The tenderer will carry out an assessment based on industry-best practice of the nuclear fusion power plant physics and technology system architecture, overall configuration and system engineering processes.</p> <p>Legal or natural persons based in EU states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €10 million over four years.</p>
Proračun:	10.000.000 EUR

TENDER - Assessment of potential of renewable liquid and gaseous transport fuels of non-biological origin and recycled carbon fuels and assistance to establish a methodology to determine the share of renewable energy from RFNBOs	
Več informacij:	Spletna stran razpisa
Rok prijave:	17.9.2019
Opis:	<p>The Directorate-General for Energy invites tenders for an assessment of potential of renewable liquid and gaseous transport fuels of non-biological (RFNBOs) origin and recycled carbon fuels and assistance to establish a methodology to determine the share of renewable energy from RFNBOs. The tenderer will conduct an assessment on the potential of carbon fuels produced from fossil waste streams as well as RFNBOs, including deployment potential, resource competition and decarbonisation potential, and establish a common European methodology for determining the share of renewable energy for renewable fuels of non-biological origin.</p> <p>Legal or natural persons based in EU states or authorised countries under the WTO procurement agreement may submit bids.</p> <p>The contract is worth €750,000 over 24 months.</p>
Proračun:	750.000 EUR

TENDER for Targeted Analysis "Spatial dynamics and integrated territorial development scenarios for the functional area of central Europe–CE FLOWS	
Več informacij:	Spletna stran razpisa
Rok prijave:	12.9.2019
Opis:	<p>The service contract shall investigate spatial dynamics and existing flows across regions in Central Europe (CE) and identify main development potentials, drivers and bottlenecks in that functional area. Emphasis should be put on how transnational cooperation structures, governance mechanisms and solutions could be tailored to reduce economic and social disparities and foster</p>

	<p>integrated territorial development in CE. The main outcome should be policy implementation tools for integrated territorial development of the CE area.</p> <p>The following tasks, which are interconnected and interdependent, shall be carried out within the framework of this service contract:</p> <ul style="list-style-type: none"> • Task 1 - Analysis of spatial dynamics in CE • Task 2 - Development of potential development scenarios for 2030 in CE • Task 3 – Elaborating proposals for transnational policy implementation
Proračun:	300.000 EUR

NAJAVA RAZPISOV

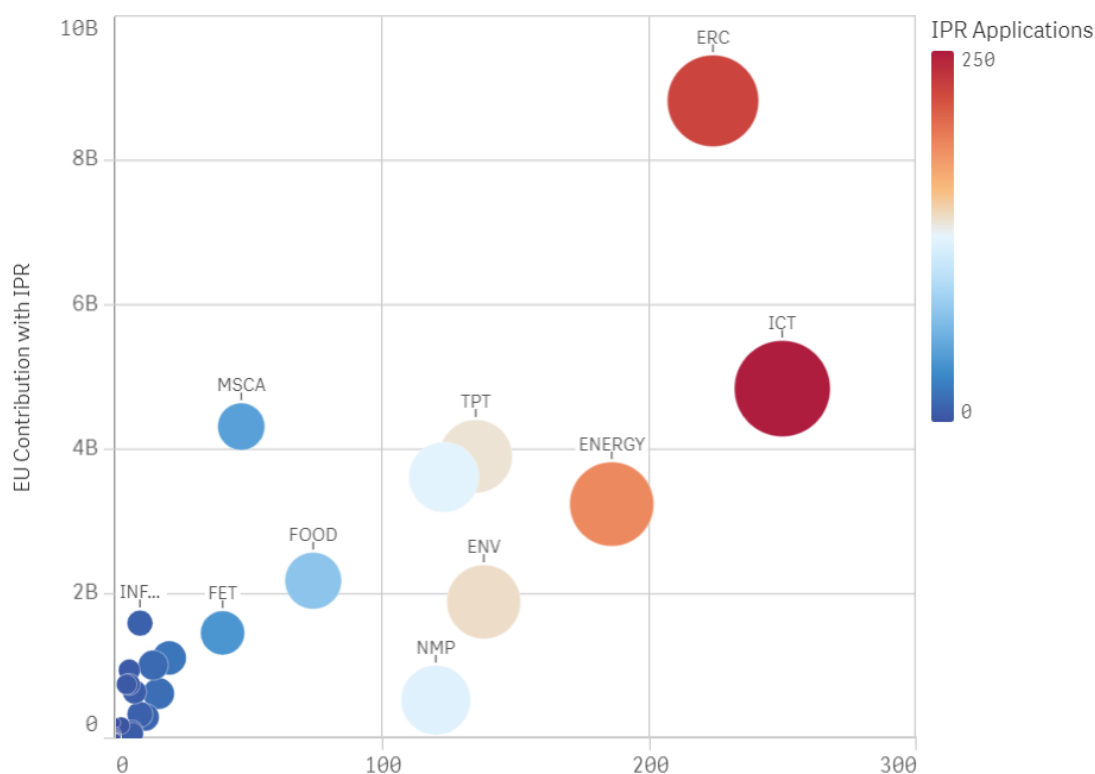

NAJAVA RAZPISA: Transnational access to the plant phenotyping facilities of EPPN2020	
Več informacij:	Spletna stran razpisa
Opis:	<p>This opportunity will be available soon. The next call is expected to open in autumn 2019. The following information is subject to change. ***</p> <p>The European Plant Phenotyping Network invites applications for its call for transnational access to the plant phenotyping facilities of EPPN2020. This enables researchers from academia and industry to access 31 phenotyping facilities in Europe. The facilities can be used for experiments with either scientific or technological objectives.</p> <p>Applicants must be from EU member states, EU associated states or developing countries. The user group leader and the majority of the users must work in a country other than the country where the installation is located.</p> <p>Selected users will gain free access to research facilities. They will also receive support for travel and accommodation and on-site logistics support by the infrastructure staff.</p>

NOVICE

- **Nepovratna sredstva ERC in projekti Obzorje 2020 na področju IKT in energije ustvarjajo vihar patentov**

Najnovejši podatki Evropske komisije kažejo, da raziskovalni projekti na področju IKT in energije ter donacije ERC za izvajanje temeljnih raziskav ustvarjajo veliko intelektualno lastnino, vključno s patenti, avtorskimi pravicami, blagovnimi znamkami in poslovnimi skrivnostmi.

IPR Applications by Research research Thematic Priority

Raziskovalni projekti IKT, ki se financirajo v okviru programa Obzorje 2020, so do zdaj ustvarili 250 vlog za pravice intelektualne lastnine, medtem ko so projekti na področju proizvodnje energije ustvarili 186 vlog. ERC projekti so ustvarili 244 vlog za zaščito intelektualne lastnine.

Skupaj 502 projektov v okviru programa Obzorje 2020 je do sedaj izdalo 1.451 zahtevkov za pravice intelektualne lastnine. Prispevek EU za te projekte in pravice intelektualne lastnine je ocenjen na 2,6 milijarde EUR.

Vsi podatki o pravicah intelektualne lastnine, ki jih poroča Komisija, so povezani z izvajanjem projekta, tako kot neposredna posledica raziskovalnih projektov kot tudi tistih, ki prispevajo k delu projektov.

➤ **Imenovani so člani svetovalnega odbora EIC in objavljen je razpis za prve programske vodje**

Evropska komisija je v svetovalni odbor Evropskega sveta za inovacije (EIC) imenovala 22 izjemnih inovatorjev in inovatork iz sveta podjetništva, tveganega kapitala, znanosti in tehnologije. Svetovalni odbor bo pomagal Evropski komisiji pri odločitvah glede financiranja inovacij, da bi znanstvene dosežke spremenili v poslovne priložnosti in pospešili širjenje podjetij. Prav tako je Evropska komisija objavila razpis za delovno mesto prvih programskih vodij Evropskega sveta za inovacije. Razpis bo odprt do 31. julija. Člani lahko podrobnejše informacije dobijo na SBRA. Evropski svet za inovacije je enotna kontaktna točka za financiranje inovacij, ki je trenutno v pilotni fazi. Do zdaj je financiral že preko tisoč visoko inovativnih projektov v vrednosti več kot 700 milijonov evrov. V celoti bo deloval od leta 2021 v okviru naslednjega programa EU za raziskave in inovacije Obzorje Evropa.

➤ **V živo je bilo prikazano delovanje »vesoljske podatkovne avtoceste«**

V sredo, 10. julija, 2019, so v živo prikazali delovanje evropskega sistema podajanja podatkovnih relejev (EDRS), ki je znan tudi kot »vesoljska podatkovna avtocesta«. Projekt, ki je rezultat javno-zasebnega partnerstva med Evropsko vesoljsko agencijo (ESA) in Airbusom, je EU podprla z 90 milijoni evrov. Slike satelitskega sistema EU Copernicus, ki bo kot prvi uporabljal novi sistem za hiter prenos podatkov, bodo lahko prenesene do sedemkrat hitreje kot zdaj.

Več: [Spletna stran EDRS](#)

➤ **Razpisanih je 35 milijonov evrov za razvoj rešitev umetne inteligence za preprečevanje in zdravljenje raka**

Evropska komisija je objavila razpis v vrednosti 35 milijonov evrov za razvoj rešitev umetne inteligence za preprečevanje in zdravljenje raka. Sredstva bo namenila tehnološkim rešitvam za analizo zdravstvenih slik za diagnostiko raka ter razvoju drugih orodij in analiznih metod za preprečevanje, napovedovanje in zdravljenje najpogostejših oblik raka. Rok za oddajo predlogov projektov se izteče 13. novembra. Člani lahko dobijo na SBRA dodatne informacije, pa tudi pomoč pri iskanju partnerjev in pripravi predlogov.

Razpis je del programa Obzorje 2020, prek katerega je na voljo 177 milijonov evrov za digitalne rešitve in kibernetno varnost na področju zdravja in nege. Aprila lani je Evropska komisija objavila načrt za digitalno preobrazbo na področju zdravja in nege v katerem navaja, da namerava testirati določene

praktične primere čezmejne izmenjave zdravstvenih podatkov za raziskave s ciljem izboljšanje obravnavo, diagnozo in preprečevanje bolezni.

Osredotočiti se namerava predvsem na tri področja. To so hitrejše diagnosticiranje in boljše zdravljenje redkih bolezni, boljše predvidevanje epidemij in identifikacija čezmejnih tveganj za okužbe ter uporaba podatkov, ki niso zbrani s kliničnim preskušanjem, da bi zagotovili, da bi zdravstveni produkti in inovativne tehnologije ter terapije bile čim bolj prilagojene potrebam bolnikov.

➤ **Predlog strateškega inovacijskega programa Evropskega inštituta za inovacije in tehnologijo (EIT) za obdobje 2021-2027**

Evropska komisija je predlagala strateški inovacijski program Evropskega inštituta za inovacije in tehnologijo (EIT) za obdobje 2021–2027. Njegovi cilji so krepitev regionalnega učinka skupnosti znanja in inovacij, krepitev inovacijske zmogljivosti visokošolskega izobraževanja ter vzpostavljanje novih skupnosti znanja in inovacij (SZI). EIT trenutno podpira osem SZI, ki povezujejo podjetja, univerze in raziskovalna središča v čezmejna partnerstva. Člani lahko podrobnejše informacije dobijo na SBRA.

Krepitev regionalnega učinka skupnosti znanja in inovacij v predlogu novega strateškega inovacijskega programa EIT pomeni, da naj bi EIT z razvojem regionalnih strategij obveščanja okreplil svojo mrežo in povezal še več visokošolskih institucij, podjetij in raziskovalnih organizacij ter razvil povezave s strategijami pametne specializacije.

Krepitev inovacijske zmogljivosti visokošolskega izobraževanja pomeni, da naj bi EIT s finančnimi sredstvi, strokovnim znanjem in mentoriranjem podprl 750 visokošolskih institucij, da bodo lahko razvile gospodarske dejavnosti na svojem interesnem področju. Pri zasnovi in izvajanju dejavnosti naj bi se osredotočil zlasti na države z manjšo inovacijsko zmogljivostjo. Pri tem naj bi se oprl na uspešne politične pobude, kot je HEInnovate, brezplačno orodje za samoocenjevanje visokošolskih institucij, ali okvir ocene regionalnega inovacijskega učinka, ki univerzam omogoča, da ocenijo, v kolikšni meri spodbujajo inovacije v svoji regiji.

EIT bo vzpostavil dve novi skupnosti znanja in inovacij (SZI) na področjih, ki bosta najustreznejši glede na prednostne naloge politike programa Obzorje Evropa. Prva naj bi začela delovati leta 2022 in se bo osredotočala na kulturni in ustvarjalni sektor. Prednostno področje druge nove SZI, ki naj bi začela delovati leta 2025, bo določeno pozneje.

➤ **Evropska komisija je objavila drugi razpis telekomunikacijskega programa Instrumenta za povezovanje Evrope (CEF)**

Evropska komisija je objavila drugi razpis v okviru telekomunikacijskega programa Instrumenta za povezovanje Evrope (CEF) v vrednosti 25 milijonov evrov. Sredstva so namenjena evropskim javnim upravam in podjetjem, da se bodo lahko povezala z vseevropskimi digitalnimi platformami ter zagotovila čezmejno interoperabilnost storitev. Rok za oddajo predlogov projektov je 14. november 2019. Člani lahko na SBRA dobijo podrobnejše informacije in pomoč pri pripravi predlogov projektov.

Razpis zajema šest področij. Za področje kibernetična varnost je na voljo 10 milijonov evrov, za e-zdravje 5 milijonov evrov, za e-javno naročanje 1 milijon evrov, za portal evropskega e-pravosodja 3 milijone evrov, za javne odprte podatke 5 milijonov evrov ter za novo evropsko platformo o digitalnih spretnostih 1 milijon evrov.

Telekomunikacijskemu programu Instrumenta za povezovanje Evrope (CEF) je v finančnem obdobju 2014–2020 namenjena 1 milijarda evrov. Od tega je 870 milijonov evrov že dodeljenih. Slovenija je dobila 5,1 milijona evrov.

➤ **Skupno raziskovalno središča Evropske komisije (JRC) opozarja na nevarnost politike brez dokazov**

Poročilo Skupnega raziskovalnega središča Evropske komisije (JRC) ugotavlja, da je načelo, da je treba politiko obveščati z dokazi, ogroženo. V poročilu ugotavljajo dejavnike, ki vplivajo na politično odločanje.

Poročilo navaja, da naraščajoča kompleksnost političnih izzivov, skupaj z obiljem in nejasnostjo znanstvenih spoznanj, zahteva večjo uporabo strokovnih nasvetov, vendar je mnenje strokovnjakov večkrat preslišano.

JRC je povabil šestdeset mednarodnih strokovnjakov s področja vedenjskih in družbenih ved ter humanistike, da bi preučili, kako in zakaj čustva, vrednote, identiteta in razum vplivajo na javno odločanje. Razumevanje, kaj vpliva na politično odločanje in vloga čustev, vrednost, identitete in razuma, so ključni za vzpostavitev Sistema političnega odločanja na podlagi dokazov, ki bo prineslo pozitivne družbene spremembe.

➤ **Za vzpostavitev mreže centrov odličnosti na področju umetne inteligence je na voljo 50 milijonov evrov**

Evropska komisija je objavila razpis, prek katerega bo za vzpostavitev mreže centrov odličnosti na področju umetne inteligence razdelila 50 milijonov evrov. Namen tega razpisa je povezati najboljše raziskovalne skupine z namenom, da se bodo skupaj lotili reševanja velikih znanstvenih in tehnoloških izzivov. Razpis ima dva dela. Prvi je namenjen združitvi vodilnih evropskih raziskovalcev v mrežo evropskih centrov odličnosti, ki bodo delali na ključnih področjih umetne inteligence. Drugi del je namenjen koordinaciji in izmenjavam med izbranimi projekti in drugimi pobudami. Člani lahko več informacij in pomoč dobijo na SBRA.

V okviru mreže evropskih centrov odličnosti si bo vsak center izbral pomemben znanstveni ali tehnološki izziv, ki je pomemben za industrijo in zanj iskal rešitve. V okviru koordinacije in izmenjav med izbranimi projekti bo Evropska komisija dala prednost razvoju doktorskih programov, vključevanju umetne inteligence v kurikule in organizaciji prakse oziroma pripravništev.

Evropska komisija nadalje pričakuje, da bo okrepljeno sodelovanje z industrijo pripomoglo k vzpostavitvi ekosistema virov za raziskave in razvoj, pa tudi stroke in infrastrukture na področjih, kot so super računalniki, prema na področju robotike in internet stvari.

Rok za oddajo predlogov se izteče 13. novembra. Razpis sledi napovedi Evropske komisije, da bo 20 milijonov evrov zagotovila za vzpostavitev spletne platforme AI4EU, ki bo omogočila izmenjavo orodij in virov umetne inteligence v Evropi v skladu s evropsko strategijo za umetno inteligenco. Podlaga za razpis je program dela programa Obzorje 2020 v obdobju 2018-2020.
